Hello!

My name is Volodymyr Yaroslavskiy.
I am a restaurateur, TV presenter, chef
and founder of the world chain of
modern cuisine restaurant “NAI”

For many years now, I have been introducing modern Ukrainian cuisine to celebrities from all over the world, leaders of different countries and other officials.

Due to unfortunate events, everyone in the world has heard about my homeland and about the courage of our people. I want to enable people from different countries to taste Ukrainian food because just like the people of our country, it is exceptional.

Currently, I am actively developing a chain of modern cuisine restaurant — NAI.

By the end of 2025, my team and I are planning to open NAI in more than 30 cities around the world.

The main reason for the success of my restaurant network, I believe, is my team of experts. Over the years, I have managed to bring together the best experts in the restaurant industry into one team. While we open restaurants in different cities in partnership with others, **I personally oversee all aspects of launching and managing the restaurant** with my team, with whom I have been collaborating for many years and have successful experience in opening restaurants. I personally oversee every step of the restaurant's operation and am highly involved in all processes. This is evidenced by the successful operation of restaurants in Ukraine, Poland, and the Czech Republic. **Therefore, I can guarantee the success of opening a restaurant in Cascais, as I will personally ensure that it becomes the best restaurant in Portugal.**

To create havens where **anyone** can savour delicious cuisine **anywhere** in the world regardless of the weather or occasion, just like they would at home – with genuine warmth and hospitality.
The design of the restaurant is developed by the world-famous designer — Yova Jager.

The menu and concept are tailored for guests of various nationalities. Unique dishes, modern presentation, emphasis on details, and a high level of service — we aim to create a positive gastronomic experience for everyone.

The project is implemented by a large team of the best experts in their fields with the support of the Ministry of Foreign Affairs of Ukraine and the Ministry of Culture of Ukraine.

The NAI team has experience in implementing marketing and PR campaigns at the international level, as well as direct contacts with influencers, thought leaders, celebrities, ambassadors, and other officials in various countries. Advertising in Times Square, publications in the media, invitations to restaurants for May Musk or Liev Schreiber - this is the daily work of the NAI marketing department.
